

**Notice for Children Commuting by Private Cars (LN to Class IV)**

Dear Parent,

07.09.18

Keeping in mind the grave traffic situation in and around the school, we feel we need to take a few steps to overcome this. We sincerely hope that you will cooperate.

We request you to form carpools with children of your area. As there is “no parking” outside school, you will need an escort mother along with the children, so that as the driver stops, the mother quickly helps the children to get down. Didis are posted outside the school to escort them to the foyer. The same procedure needs to be followed at dispersal time also.

We shall try this for 15 days and review the situation. We will provide you with a list of children in your area.

Principal
